Olvasd el figyelmesen a következő szöveget, majd jelöld az összes olyan állítást,
amely **igaz** a cápákkal kapcsolatban!

Sharks

Sharks are amazing animals that live in the oceans. They have lived on Earth for millions of years. There are more than 500 different kinds of sharks. Some sharks are very small, but others are very big. The whale shark is the largest shark in the world. Even though it is huge, it eats tiny animals called plankton. Sharks are excellent swimmers because they have strong bodies and powerful tails. They have many sharp teeth, and new teeth grow all the time. Most sharks eat fish, but some also eat squid or seals. Sharks have a very good sense of smell, and they can find food from far away. They can also feel movements in the water. Many people are afraid of sharks, but most sharks do not attack humans. Sharks are important because they help keep the ocean healthy. We should protect sharks and their homes. They are fascinating creatures and an important part of life in the sea.

- A: There are over 500 different kinds of sharks.
B: The whale shark is the biggest shark in the world and it eats large fish.
C: Most sharks are dangerous to people and often attack humans.
D: Sharks can grow new teeth during their lives.
E: Sharks help keep the rivers healthy.
